

High Impact Interior Surfaces

We share our experience and expertise through our CES-registered courses.

Our presenters offer participants valuable insight into the direction of our industry by exploring common issues and pragmatic considerations for performance, maintenance, sustainability and more.

Course Information

Architects

Course Number: ACROV4

Credit Awarded: 1 LU

Delivery Name: Construction Specialties

Curriculum Group Name: AIA Providers

Participants will learn:

- How and where damage occurs on interior surfaces
- Important criteria for selecting appropriate wall protection
- A variety of common wall protection applications
- Which codes apply to wall protection products
- Wall protection in today's sustainable market

Join us for an AIA approved presentation on wall protection.
